

# Temperature and pressure measuring instrument TDM 51 F

**Benefits** 

EnOcean<sup>®</sup>-inside

mestic technology applications

Integrated mains voltage monitoring

Ideal for measuring a great variety of values and parameters in do-

Pressure and temperature sensors can be connected

■ EEP (EnOcean<sup>®</sup> Equipment Profile): Generic Profile (GP)

## **Application**

For measuring pressure and temperature in domestic technology applications such as filling pressure in the heating system, level in fuel oil tanks or cisterns, layer temperature in hot water storage tanks or system temperatures (e.g. flow, return).

### Versions

	Part no.
Temperature and pressure measuring instrument TDM 51 F	78089
	Blue part no. = in-stock items

## **Description**

The temperature and pressure measuring instrument TDM 51 F features five inputs for Pt-1000 temperature sensors and an RS-485 Modbus connection for digital temperature sensors. The measured data is transmitted to the AFRISOhome gateway HG 01 via an integrated EnOcean<sup>®</sup> wireless module. The measured data is visualised on the AFRISOhome application. If the measured value is out of range, groups of persons (e.g. owner or janitor) can be notified selectively. TDM 51 F monitors the mains voltage and sends an alarm message in the case of a power outage. EnOcean<sup>®</sup> wireless technology allows for integration into building control systems.

# **Technical specifications**

 Operating temperature range

 Ambient:
 -5/+55 °C

 Storage:
 -10/+60 °C

Supply voltage AC 100 - 240 V

Nominal power 5 VA

## Housing

 Wall mounting hou 

 sing made of im 

 pact-resistant plastic

 (ABS)

 W x H x D:
 100 x 188 x 65 mm

 Weight:
 430 g

 Degree of protection:
 IP 40 (EN 60529)

Inputs

5 x Pt 1000 (2-wire) 1 x Modbus RTU (RS 485)
