

Condensate filter cartridges KFP

Benefits

- Reliable protection of your flue gas analyser against condensate
- Easy plug connection: gas sampling hose can be directly connected to the connection nipple
- Modular design for fast cleaning and easy filter replacement

Application

Condensate trap for separating and collecting the condensate during the flue gas measurement. Version KFP 2P suitable for compact flue gas probe AKS-K and measuring instrument BLUELYZER ST. Version KFP suitable for modular probe system; connection at the gas sampling hose in the base handle AWS-B.

Versions

	Part no.
 Condensate filter cartridge KFP	500190
 Condensate filter cartridge KFP 2P	500192
 Spare parts package gas treatment system KFP 5 x Infiltec fine filter, 5 x Teflon membrane	500208
 Spare parts package gas treatment system KFP 2P 5 x particle filter, 5 x Teflon membrane	500214
